

Stolen and Otherwise

We stamp our own value upon ourselves and cannot expect to pass for more.

It is reported that work will soon be resumed on the Santa Fe cut-off at Belen.

"Many an honest man," says John Wamaker, "fails because he is a poor advertiser." Mr. Wamaker being one of the most successful merchants in the world and one of the best advertisers, ought to be a competent witness on this subject.

Newspaper advertising costs you too much when you try it today and drop it to-morrow. So would clerks cost you too much if you hired them for a day now and then. Same with delivery wagons. The wheels of your business must be kept running.

Ten million stray pieces reached the dead letter office during the past fiscal year. Fifty thousand dollars in cash and money orders, and checks to the value of \$1,433,563 were found in the letters.

The total amount of stamp duties collected in August and September in Mexico was \$5,361,000, or at the rate of more than \$30,000,000 yearly. This is a demonstration of the business activity throughout the republic.

At Joplin Missouri an Englishman was soundly thrashed by an Irishman named Flynn, for speaking contemptuously of the American flag. In that particular instance the sympathies of the Americans present were with the Irishman.

Mr. Robert Morris Mayes and Miss Edith Georgia Galles, daughter of Hon. Nicholas Galles Register of the Land office at Las Cruces; were married at the home of the bride's parents in Las Cruces, October 28th. Rev. Franklin Davis of Mesilla officiating. The young couple will make their home at Mayfield Kentucky.

The Graphic mine at Magdalena, Socorro county, last week shipped a carload of ore that runs fifteen per cent in copper. Since the first of April, this mine has shipped 3,009 tons of zinc carbonate ore. The Graphic, formerly was a great lead producer.

Says an Arizona man: "I tell you Arizona is on the eve of one of the greatest booms ever experienced in the history of the west. The boom is really on now, but it is not felt as it would be when some of the vast enterprises and undertakings in the territory are materialized. Arizona, in my opinion, is a good country to be tied to."

Santa Fe, N. M. Special.—A fine hotel is to be erected at Sunmount Tent

City. The contract is to let by Messrs Dow and Gibson, for a large and comfortable building to be called the Sunmount Vista. The building will have a frontage of 110 feet with a six foot porch 156 feet in length. There will also be a plaza in the center, 48 feet square. The hotel will be a one-story brick building containing twenty rooms with large parlors and reception halls.

The discovery of tin and of tungsten is reported from Las Vegas. George Rhodes some time ago found specimens of tungsten. Saying nothing he proceeded to Denver where he enlisted capital. Accompanied by an expert he returned to the mine which is near Rivera. Several lots of it were sent to Denver. No assay brought less returns than \$600 a ton. The metal was found in large quantities and the expert made a favorable report. In the same vicinity tin ore has been found.

Jesus Montoya, one of the oldest inhabitants of New Mexico died at his home in the village of Agua Fria, a few miles south of Santa Fe. Deceased was one hundred and seven years old and had retained many of his faculties until late years, but had elapsed into senility and childhood of late. He leaves a numerous progeny. The remains were taken to Pena Blanca, where they were buried in the parish cemetery at that place. Montoya was a native of Agua Fria, in which village he had lived the major portion of his life, only leaving it for a residence of about twenty years in the village of Cienega, twelve miles south of Santa Fe.

BOOM TOWN.

One or two lively scraps took place on Sixth street Tuesday night.

There was a man stabbed on Sixth street Sunday night. He is said to be in a very critical condition.

An old man who was passing by the Dew Drop saloon on Sunday night was held up by a thug at the point of a gun. The old man proved a sort of Foxy Grandpa, for he grabbed the gun from the footpad and nearly beat him to death.

A red hot scrap took place in front of the Cattle Exchange Sunday night and greatly amused the boys who gathered around and saw that the go was according to Marquis of Queensberry rules.

Yesterday the court called a case for hearing to try a man for holding up and beating in a serious manner one of the men at the round house. When the prisoner was not forthcoming the court asked where he was and was informed that he had escaped.—Douglas Dispatch

ATTEMPTS LIFE OF PRESIDENT DIAZ.

Pasa with a Bad Record Fires Five Shots at the President and his Staff Were Passing in a street Car as a Guest of the people of Guanajuato.

Guanajuato, Mexico, Oct. 27.—Great excitement was caused here today by what looked like an attempt on the life of President Diaz, who was a guest of the state government during the festivities here. The president, his staff and guests were passing by the Cantador garden in a street car when a man of the lower class by the name of Elias Toscano approached the car shouting, and fired five shots from a revolver at the car fortunately doing no harm.

Pablo Escanador of the president's staff rushed from the car and caught the man wrenching the revolver from his grasp. The police took Toscano to prison. Toscano is a bad man with a bad criminal record and was but recently released from prison at Granaditas, where he had served a term for homicide. The matter will be investigated. One theory is that Toscano was drunk, and another that he deliberately planned to shoot the chief magistrate.

The president remained perfectly cool and was acclaimed by the crowd of citizens showing their joy at his escape. Toscano's evil record makes the theory of a deliberate attempt at assassination appear probable.

The president has received the felicitations of the citizens and diplomatic corps here.

ABSOLUTELY IN NO DANGER

The High Altitude and Dry Climate Makes this City Impregnable to the Scourge.

El Paso News Oct. 28th.

El Paso, the crowned queen of the Southwest, has opened her gates without fear or favor to the entire population of San Antonio or any city on the face of the earth. Thus has the board of health declared its supreme contempt of the fallacy of the theory that there is danger of a yellow fever epidemic in this city.

This action was taken yesterday afternoon at the city hall, when the board of health passed the following resolution:

"Resolved that owing to the high altitude and dry, pure atmosphere of this city, that it is the sense of this meeting that it is impossible for there to be the slightest danger from yellow fever; and therefore all citizens of Texas, from every section of the state, are welcome to visit El Paso whenever they see fit to do so."

This is the ultimatum of the medical practitioners of the city and the thinking business population, after several hours' careful discussion of every phase of the case.

At the meeting yesterday afternoon nearly every prominent physician of the city attended and a number of business men, who were anxious to a discussion of the matter. Dr. W. N. Vilas president of the board of health, presided, with health officer Dr. Chas. T. Race as secretary.

Best Meals On Wheels.

Rock Island meals Are the best on wheels.

Fix this little jingle fast in your memory.

Some day it will be useful. Some day you will go East — to Omaha, Kansas City, St. Joseph, Chicago or beyond.

You won't know which line to take until you remember that

Rock Island meals Are the best on wheels.

Then you'll know.

Seriously, though, the Rock Island dining car service is superb; the cleanest of clean linen, the finest of china and silverware, the best of food, and waiters and cooks who "know how."

Rock Island System
